FOR DELIVERY:

City/State/Zip: \_\_\_\_\_

Can you use Less-Than-Prime®?: Yes  No

Less-Than-Prime® (LTP) is the term we use for any type of material that is not in good enough condition to be sold as prime quality. It could be overstock, odd size, rusty, clean, pitted, damaged, reject, miscut or, in some cases, just a great buy! In most cases, LTP products don't have mill test reports available.
